Re: LightSquared Proceeding - IB Docket No. 11-109

Dear Ms. Dortch:

I have been reading some fascinating articles about LightSquared's mission to change the wireless broadband communications landscape. It has a clear and laudable mission. Further, the company appears steadfast in meeting its commitments and bringing its revolutionary wholesale wireless network to fruition.

Thank you for the role the FCC plays in protecting all Americans, overseeing the process, and allowing the LightSquared innovators to innovate.

Please continue to oversee LightSquared with a commitment to allowing science to lead the path here. America will be better off with better broadband options.

Very truly yours,
